EASY_{SA}

Your partner in automation and electronics

Competencies

The synergy of our competencies and the strictness of our methods ensures the control of the projects with innovative solutions and quality results.

Our expertise :

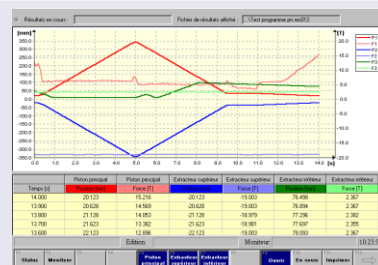

PLC - CNC

- Management of processes
- Management of scenarios
- Mathematic functions
- Geometric functions
- Interpretations, interpolations
- Monitoring, security, redundancy

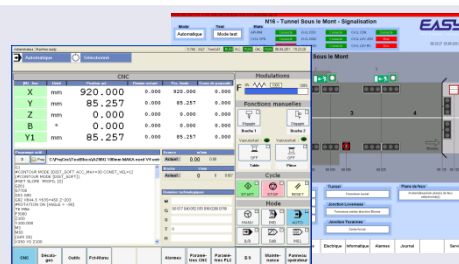

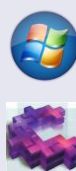

Motion Control

- Trajectories calculation
- Regulation of speed, position, force, pressure (hydraulic axes)
- Modeling, feed forwards control
- Thermal, elastic compensations
- Synchronization (master-slave axes)
- Monitoring, simulation

HMI - SCADA

- Process control and process monitoring
- Multiplatform interfaces
- Remote control, WEB functions
- Redundancy
- Predefined menus for messages, alarms, settings, history, ...

Development and electronic production

- Micro-programmed or passive devices and electronic boards
- Customised HMI
- Various electronic interfaces
- PCB, control panels and electrical cabinets

Experience

The extensive experience of our engineers combined with their habits of diverse and complex projects easier the understanding of your needs, optimizes the choice of solutions and ensure the success of your projects.

Our activities :

Machines

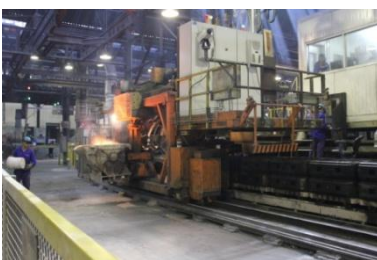

Machines tools

Sliding head turning, turning, milling, stamping, cutting press, grinding

Special machines

foundries, printing industries, watch industries, pharma, chemistry

Infrastructure

Tunnels

traffic, ventilation, lighting, fire, energy, security

Water management

water networks, STEP, water cleanup

Buildings

air conditioning, ventilation, heating

Manufacturing

Electricity

electrical cabinets and control panels

Electronics

electronic devices and various interfaces

EASY_{SA}

Profile

Company founded in 1989

Employees: ~ 15

Annual turnover: ~ CHF 5'000'000

Goal: promotion of the local and of the long term cooperation

Principles: ethics, rigor, flexibility

Strength: experience of work, methods, availability

Address

Easy Etudes et Applications Système SA

Rue de l'Ecluse 29

2740 Moutier
